

ESX32

32" Wireless Poster

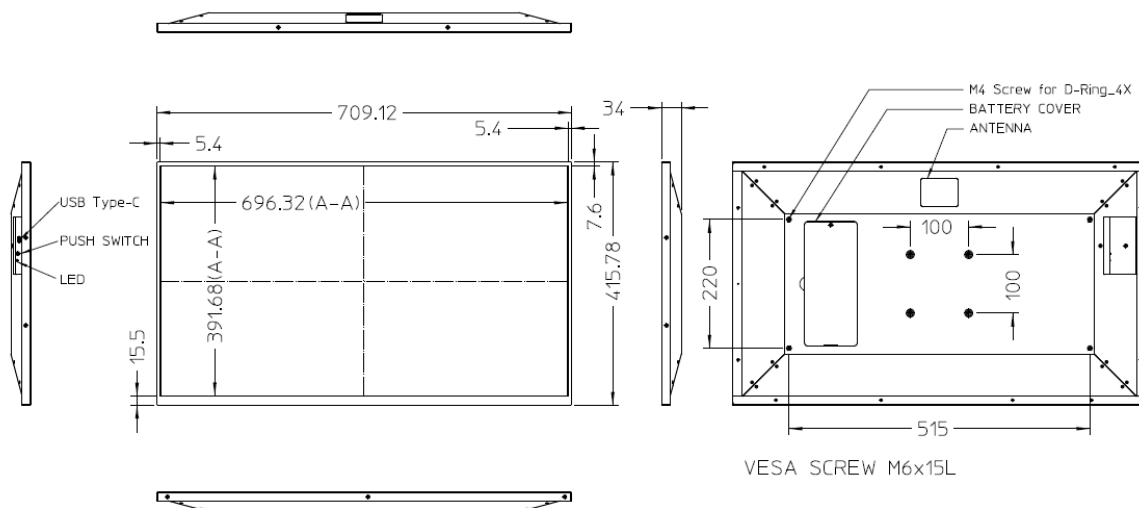

The future has arrived at your store, restaurant or small business, and it is beautiful. The Agile Display Solutions ESX32 is the world's first environmentally sustainable, high-resolution, full-color programmable wireless poster. Using cutting-edge Spectra 6 ePaper technology, the ESX32 requires no power at all, except when changing the image. Cloud-based management allows you to set up devices and change content quickly and easily. Hang and forget, and display your company graphics, marketing message and information wirelessly, for months on a single charge.
